

KESHAV KUNVER

Software Engineer | Full-Stack | Applied AI

Los Angeles, CA | keshav@kunver.com | kunver.com | linkedin.com/in/keshav-kunver | github.com/keshavkunver

PROFESSIONAL SUMMARY

Software Engineer with 6+ years of engineering experience across full-stack development, automation, and quality. Builds production web, mobile, and AI-powered applications using TypeScript, React, Next.js, Python, and SQL. M.S. in Software Engineering with a 4.0 GPA and B.S. in Computer Science.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL

Frontend: React, Next.js, React Native, Expo, Three.js, HTML/CSS

Backend & Data: Node.js, REST APIs, PostgreSQL, Supabase, Firebase, MongoDB, Stripe

AI: Anthropic Claude, OpenAI, OpenRouter, Vercel AI SDK, RAG, tool calling, structured outputs, LLM evaluation, LiveKit

Testing & DevOps: Playwright, Selenium WebDriver, TestNG, Postman, Git, GitHub, GitLab CI/CD, Docker, Kubernetes, Vercel

SELECTED PROJECTS

Co-Founder & Software Engineer | **FourthSpace** 2026

- Co-founded and built a mobile-first social product centered on an interactive 3D globe using Next.js, React, TypeScript, Supabase/PostgreSQL, and Vercel; owned frontend, backend APIs, authentication, real-time systems, and the data layer.
- Built a Claude agent with tool calling and safety guardrails, a Python/LiveKit voice moderator, and ~20 generative API endpoints; converted past agent failures into regression tests.

Software Engineer | **Eternal Dharma** Mar 2025-Aug 2025

- Released a React Native/Expo iOS app with a scripture-grounded Claude assistant via OpenRouter, explicit citation rules, subscriptions, and an EAS App Store release pipeline; grew it to 200+ users at peak.

Software Engineer | **HoopIntel** Selected Project

- Built a full-stack basketball analytics app using Next.js, Node.js, D3.js, Chart.js, and MongoDB.

PROFESSIONAL EXPERIENCE

Software Development Engineer in Test (SDET) | **Infosys Limited** Mar 2021-Present | Remote

- Own API and UI automation for enterprise releases, including a custom framework covering 11 APIs and 800+ test cases using JavaScript, Java, Selenium WebDriver, TestNG, and REST APIs.
- Build Claude-powered workflows across requirements analysis, test generation, automation, debugging, and validation; integrate execution with GitLab CI/CD.
- Onboarded and mentored two engineers on automation standards, test coverage, and code reviews.

Software Engineer | **Relaymile** 2021 | Remote

- Developed reusable React.js components and a component library for dynamic, responsive user interfaces.

Software Engineer | **Prathibha Management** 2019-2021 | Los Angeles, CA

- Built a full-stack talent and casting platform with Python, Django, PostgreSQL, HTML/CSS, and JavaScript; developed backend functionality and improved database performance and application security.

EDUCATION

M.S. Software Engineering | California State University, Fullerton | May 2025 | **GPA: 4.0**

B.S. Computer Science | University of California, Riverside | June 2020
